Frameworks:

.NET MAUI
Xamarin
ASP.NET
Vue.js

Competencies:

REST API design,
Containerization, Cross-
Platform development

PROFESSIONAL EXPERIENCE

RedSail Technologies | Senior Software Developer | April '19 - March '22; April '23 - Present

- Developed cross-platform mobile applications using .NET Maui and Xamarin, **serving ~8,000 pharmacies across the United States.**
- Implemented RedSail Pay, a centralized payment processing solution that reduces credit card fees for pharmacies, **saving an estimated average of \$4k (and in some cases, up to \$25k) per pharmacy annually.**
- Crafted and maintained an ASP.NET Web API. Containerized deployment with Docker, **reducing QA deployment time by ~75%.**
- Led a team of offshore developers in porting an existing iOS applications (Objective-C) to Xamarin

Onshore Outsourcing | Software Developer III | March 2022 - April 2023

- Gathered business requirements and built a cross-platform mobile applications from the ground up.
- Maintained and improved a Xamarin application supporting truck drivers with on-the-road logistics.
- Mentored coding bootcamp participants in full stack development fundamentals using .NET.
